

THE **SENOX**® **ADVANTAGE**

What sets Senox apart from the competition? It's the Senox Advantage – a commitment to excellence, quality, and innovation that makes us the leaders in the seamless gutter industry. We know your home is likely the biggest investment you'll ever make, and we take our duty to help you protect it very seriously.

Focus: As our founder, A.B. Walters, always says *"We service the seamless gutter industry. That's all we do. If it has to do with gutters, we're either doing it, thinking about doing it, or planning to do it. We're thinking of gutters all the time."* Most of our competitors have many lines of products and services they offer; we instead focus all of our energies on only one thing- helping protect home owners' investments by providing them only the finest gutters and gutter accessories.

Crafted in the USA: The Senox Advantage begins with our unwavering commitment to American craftsmanship. Most of our gutters and accessories are primarily manufactured right here in the USA, ensuring the highest standards of quality, reliability, and performance. When you choose Senox, you're not just getting superior products; you're supporting American jobs and investing in the future of our nation's manufacturing industry.

Uncompromising Quality: Quality is the cornerstone of everything we do at Senox. Our products are engineered to deliver unmatched performance, durability, and aesthetic appeal, providing the peace of mind you deserve.

Innovative Design: At Senox, we're not content with just meeting industry standards; we're dedicated to consistently surpassing them. Our team of engineers and designers are constantly pushing the boundaries of innovation, developing cutting-edge solutions to revolutionize the gutter industry. Our products are designed with advanced features that enhance performance and ensure your home is protected for many years to come.

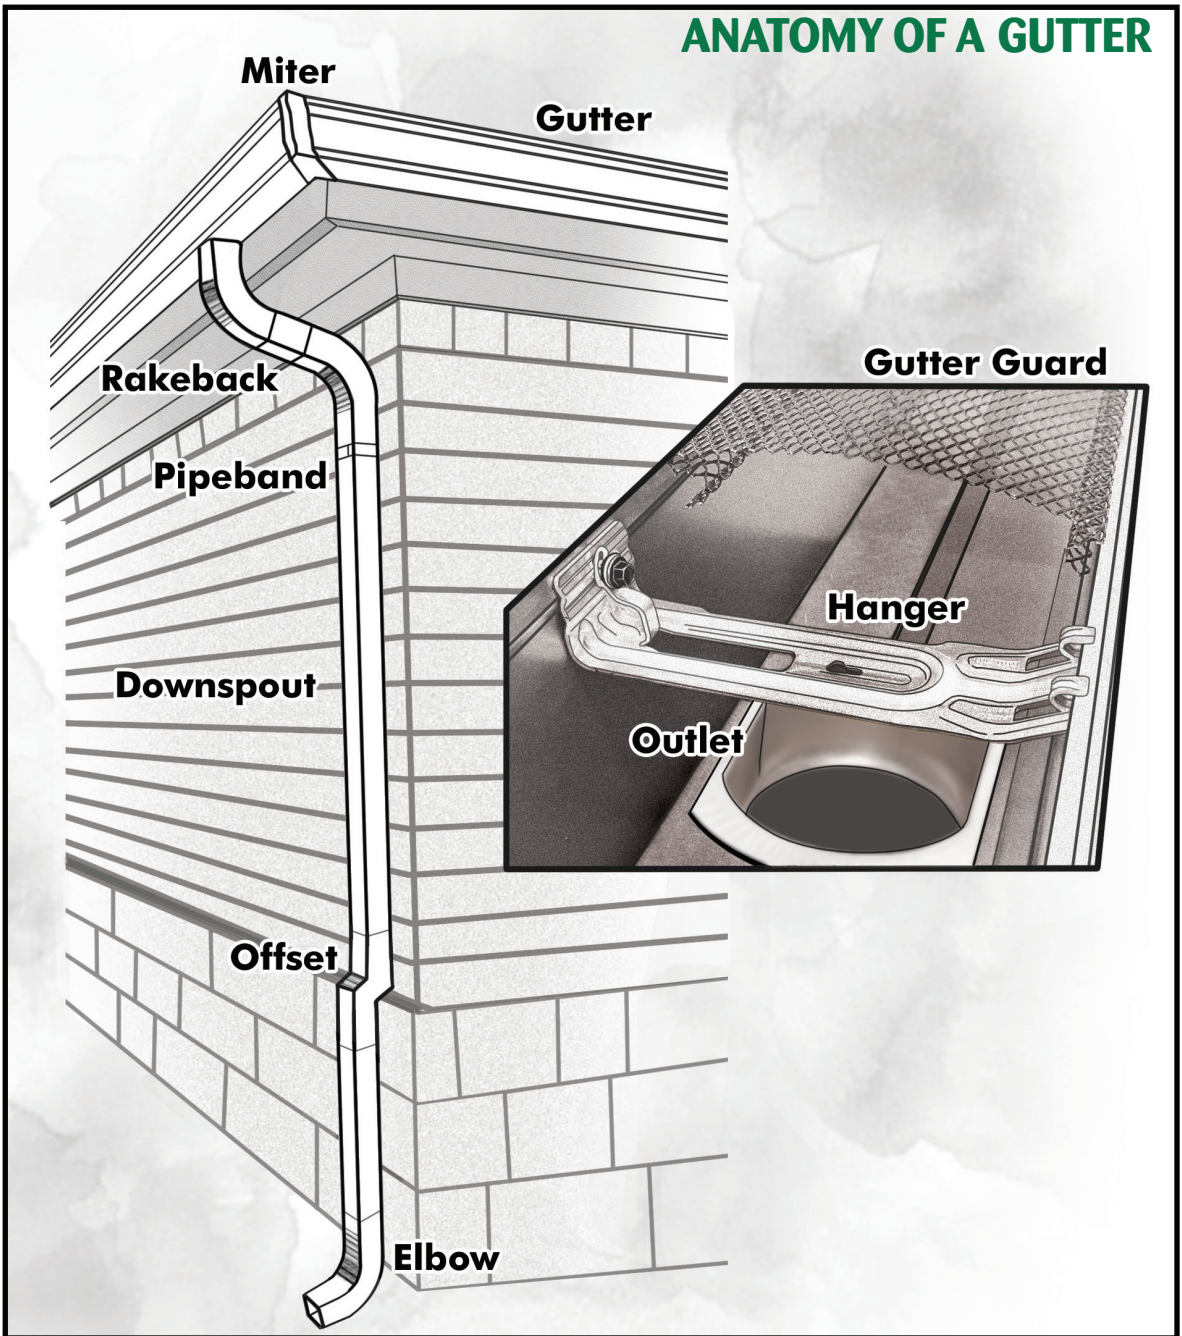

Serving the Seamless Gutter Industry Since 1972

ANATOMY OF A GUTTER

SENOX GUTTERS

Gutter coil is used for custom forming seamless gutters on-site, ensuring a custom fit and efficient rainwater drainage system to protect your home's foundations.

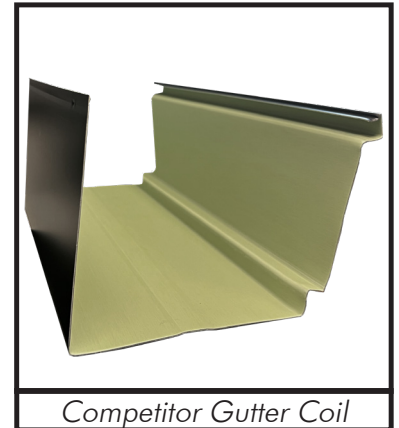

Senox gutters:

- Are available in 32 different colors, to better match your home's particular style. (30 paint + copper and Galvalume Steel.)
- Are specially formulated for running long lengths of gutter.
- Uses thicker aluminum than industry standard.

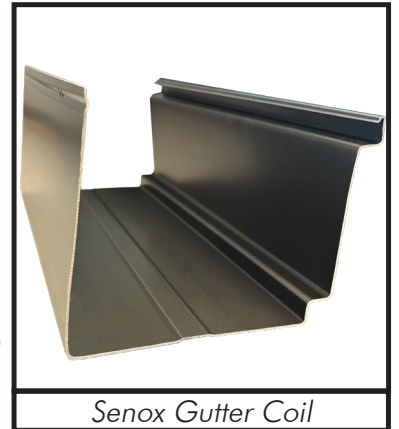

Gutters made with Senox coil typically possess greater strength and durability, making the gutters more resistant to damage from impacts, extreme weather conditions, and the weight of debris or snow accumulation.

Shadow **BAK**
wash coat™
Non-Reflective Disappearing Wash Coat

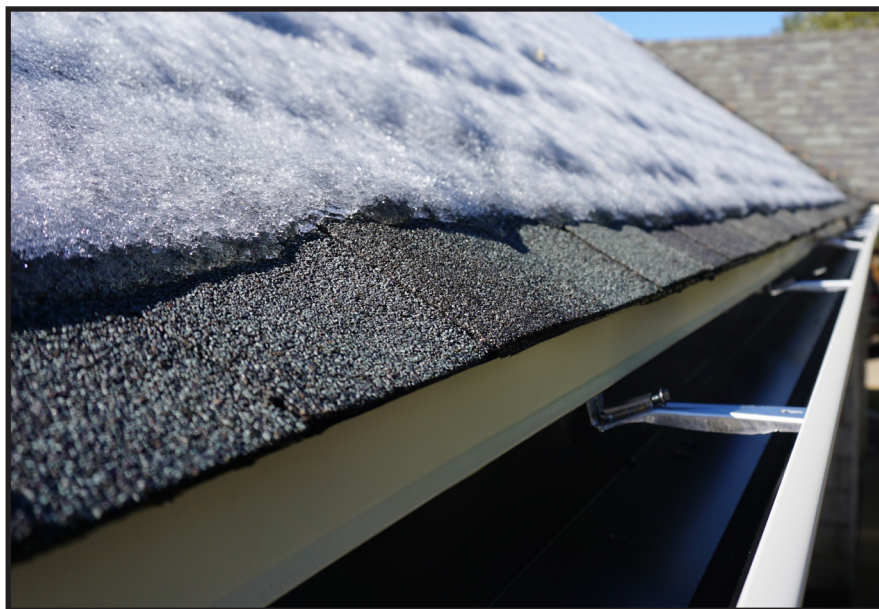

Senox gutters are the only ones available with our exclusive Shadow BAK™ wash coat, specifically formulated by Senox's R&D development team to provide the non-reflective and disappearing properties of black which limits reflection and allows the gutter to blend in seamlessly.

Senox Gutter Coil

PAINT

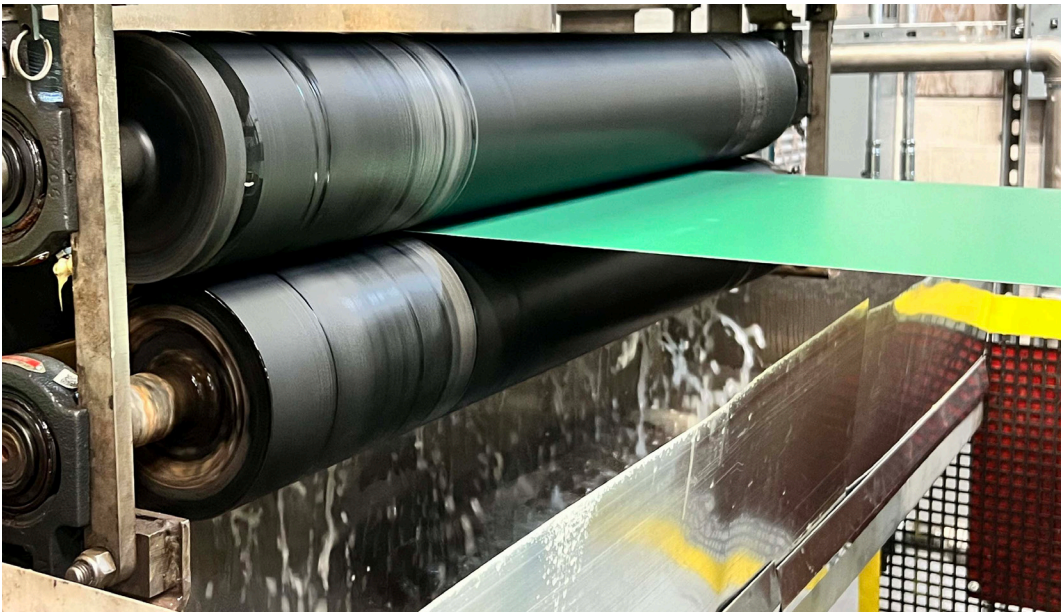

A quality bake-on paint finish provides a durable and protective coating.

Senox paint:

- Is a proprietary blend, specifically formulated for aluminum gutters to ensure consistent cohesion, durability, and to resist UV fading.
- Is exclusively applied to our coil in our Mesquite, Texas painting facility to ensure it meets our exacting standards.
- Is backed by our 50 year paint warranty (the longest in the industry.)
- Is available in 26 traditional, 3 armor tough, and 1 duel tone colors

Armor Tough® paint has a texture additive that increases abrasion resistance and gives the gutters and downspouts a more textured look to blend more seamlessly into your home.

Duel Tone® is a paint process that offers increased depth of color as well as improved abrasion resistance.

SCREWS

Specialty screws help hold the gutter system securely in place.

Senox SpeedMaster screws:

- Are a proprietary design made specifically for seamless gutters (so good, they've been copied by just about everyone)
- Don't rust because of their black ruspert coatings (salt spray tested with 1000+ hours)
- Use aluminum washers that are bonded to the perfect thickness of neoprene and tucked tightly under the head to ensure no rusting (like you get from steel) and a watertight seal.

Senox #8 screws:

- Are Ruspert coated to prevent rust and the heads are available in the full range of paint colors Senox offers, for a truly seamless installation.

DOWNSPOUTS

Downspouts are essential in moving rainwater out of the gutter and down to the ground, away from the foundation of your home.

Senox Downspouts:

- Use thick aluminum (.019). Senox downspouts typically possess greater strength and durability, making them more resistant to damage from impacts, or extreme weather conditions.
- Are made in the USA from new and recycled US aluminum.
- Uses side crimps instead of industry standard corner crimps for a tighter, cleaner fit (see illustrations below for comparison)
- Have a tighter, more aesthetically pleasing seam.

ELBOWS

Gutter elbows redirect rainwater flow from horizontal gutters to vertical downspouts, facilitating proper drainage away from your house.

Senox Elbows:

- Uses side crimps instead of industry standard corner crimps for a tighter, cleaner fit (see illustrations below for comparison.)
- Available in 75°, 45°, and 22.5° to fit almost any situation.
- Have strong seams to prevent splitting over time.
- Are made in the USA from new and recycled US aluminum.

HANGERS

Gutter hangers securely fasten gutters to your home, ensuring stability and proper alignment for effective rainwater drainage.

Senox hangers:

- Have the widest assortment in the industry to fit every situation.
- Are available in copper, galvalume steel, and aluminum.

OUTLETS

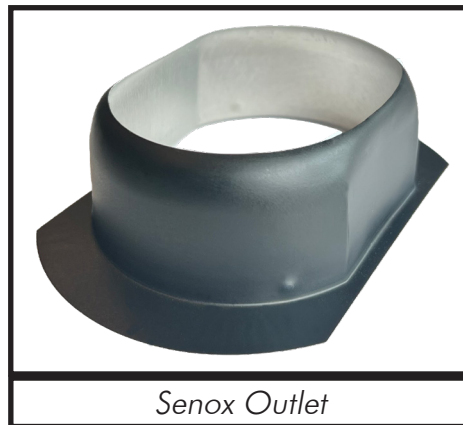

Gutter outlets serve as connecting points between the gutter system and downspouts, allowing for efficient transfer of rainwater from the gutters to the drainage system.

Senox Outlets:

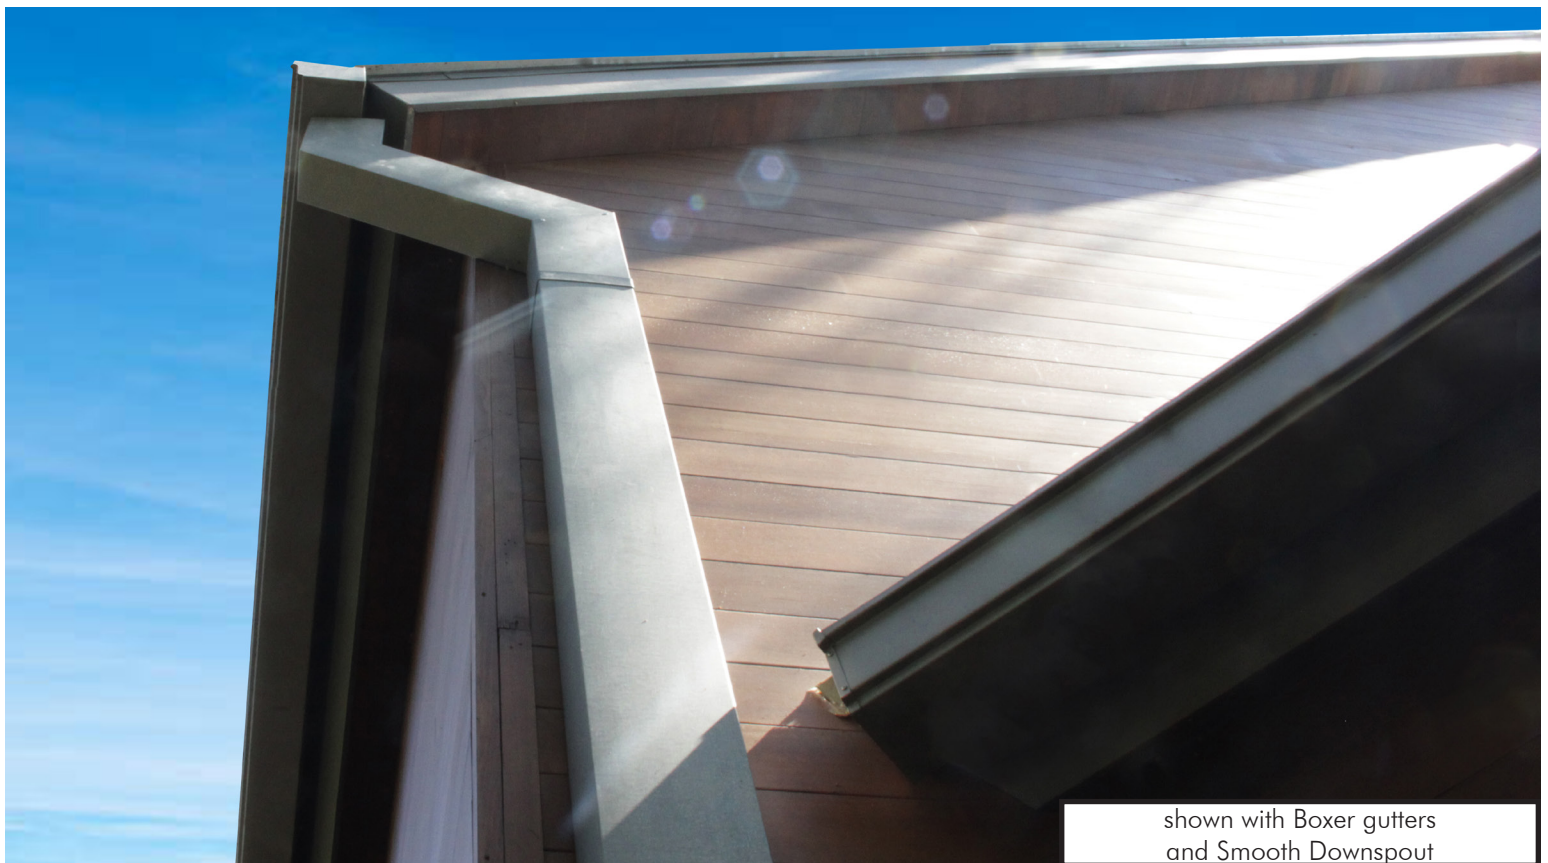

- Have dimples that ensure a tighter, snug fit.
- Utilize our outlet punch tool to provide a perfect fit not possible with hand-cut holes.
- Remove unnecessary holes in the rim that can create leak points.
- Are available in black, which limits reflection and allows the outlet to blend in seamlessly.
- Are available in oval, round, rectangular and both flat bottom and half round.
- Are available in aluminum, copper, or galvalume steel.
- Are made in the USA from new and recycled US aluminum.

GUTTER GUARD

Gutter guards are designed to prevent debris such as leaves and twigs from entering gutters, thereby reducing clogs and ensuring efficient water flow for effective rainwater management

Senox Gutter Guards:

- Are available for every home's unique requirements.
- Are available in a wide variety of finishes- from powder coated to baked on paint in dozens of colors.
- Most are manufactured in our facility in Mesquite, Texas.

ShadowBAK
wash coat®
Non-Reflective Disappearing Wash Coat

Found on the Interior of Senox Painted Aluminum Gutters

ShadowBAK® is a washcoat specially formulated by Senox that gives the inside of the gutter a non-reflective finish. The anodized bronze appearance provides the vanishing properties of a black shadow and erases the transition lines from the gutter to the roof.

50 YEAR PAINT WARRANTY

PAINTED ALUMINUM GUTTER PRODUCTS

For full details, please visit: www.SENOX.COM/warranty

WHO IS COVERED UNDER THIS WARRANTY?

Senox extends this warranty to the original purchaser of all Senox painted aluminum gutter products installed on real property owned by the original purchaser.

WHAT DOES THIS WARRANTY COVER?

Senox warrants that its painted aluminum gutter products will be free of painting defects when properly formed and installed, subject to the limitations and conditions set forth in this warranty. This warranty covers only genuine Senox painted aluminum gutter products, and only covers defects to the original factory finish that are attributable to the painting process, such as: cracking, peeling, or chipping.

Senox will assume 100% of the cost of refinishing or replacement of the defective material only during the first year. Senox's liability shall decline by 25% per annum through the fourth year and 1/2% per annum thereafter through the fiftieth year. Senox's liability shall not decline to less than 1% of the cost of refinishing or replacement during the 50th year. The basis for computing the cost shall be retail prices at the time of refinishing or replacement. The owner's share of the refinishing or replacement cost, if any, will be computed by Senox utilizing the pro-rata terms and provisions of this warranty. An invoice for such amount will be prepared and sent to the owner, in duplicate. The owner, by signing one copy of the invoice and returning it to Senox's Warranty Division along with a cashier's check for the amount shown thereon, will authorize Senox to proceed. Senox's obligation under this warranty shall at no time exceed the original purchase price of the products at the time of installation.

WHAT DOES THIS WARRANTY NOT COVER?

Defects not covered are those that result from normal weathering, product handling before or during installation, faulty installation, uses other than the designed function including but not limited to roofing, underdecking, or trim, any change or distortion of the original attaching structure, or any other thing beyond Senox's control such as: accidental damage, fire, ice, hail, lightning, winds, tornadoes, hurricanes, earthquakes, acts of God, vandalism, war, chemicals in the air (tiger striping), water or ground, fungus, mildew, damage due to seawater/saltwater exposure, runoff from algae-resistant roof shingles, lack of yearly cleaning or improper cleaning. This warranty is valid only if genuine painted aluminum gutter products supplied by Senox are used and shall be void if painted aluminum gutter products not supplied by Senox are used which cause defects to occur in the paint of the Senox painted aluminum gutter products.

WHAT IS THE PERIOD OF COVERAGE?

This warranty becomes effective from the date of the original installation of the products and is for a period of 50 years.

WHAT WILL WE DO TO CORRECT PROBLEMS COVERED BY THIS WARRANTY?

Should, during the warranty period, the Senox painted aluminum gutter products be found to have painting defects, Senox will, upon notification and validation of the complaint by physical inspection, either repair, refinish, or replace, at its option, the defective products, subject to the limitations and conditions set forth in this warranty.

Your exclusive remedy shall be repair, refinishing, or replacement solely at Senox's option and only on the terms stated in this warranty.

WHAT WILL WE NOT DO UNDER THIS WARRANTY?

Senox maintains the right to change or discontinue any of its products without notice or liability under this warranty. If the products covered by this warranty are no longer available at the time a claim is made, Senox retains the right to substitute a product of similar or greater quality or value.

HOW DO YOU GET SERVICE?

All claims must be submitted in writing to Senox promptly after discovery of the claimed defect and during the warranty period. Claims should include the name, address and phone number of the purchaser, date of purchase, name of the installing contractor and proof of purchase. All claims should be mailed to: Senox Corporation, Attn: Warranty Dept, 15409 Long Vista Dr, Austin, TX 78728.

WHAT MUST YOU DO TO KEEP THE WARRANTY IN EFFECT?

This warranty shall remain in effect only if the painted aluminum gutter products are cleaned on an annual basis in accordance with the instructions included with this warranty. The guarantee shall be null and void if harmful cleaning compounds are used resulting in damage to the finish that subsequently cause a defect.
